Sign Up and Log In

Sign Up

I'm gonna show you how to create your personal account.

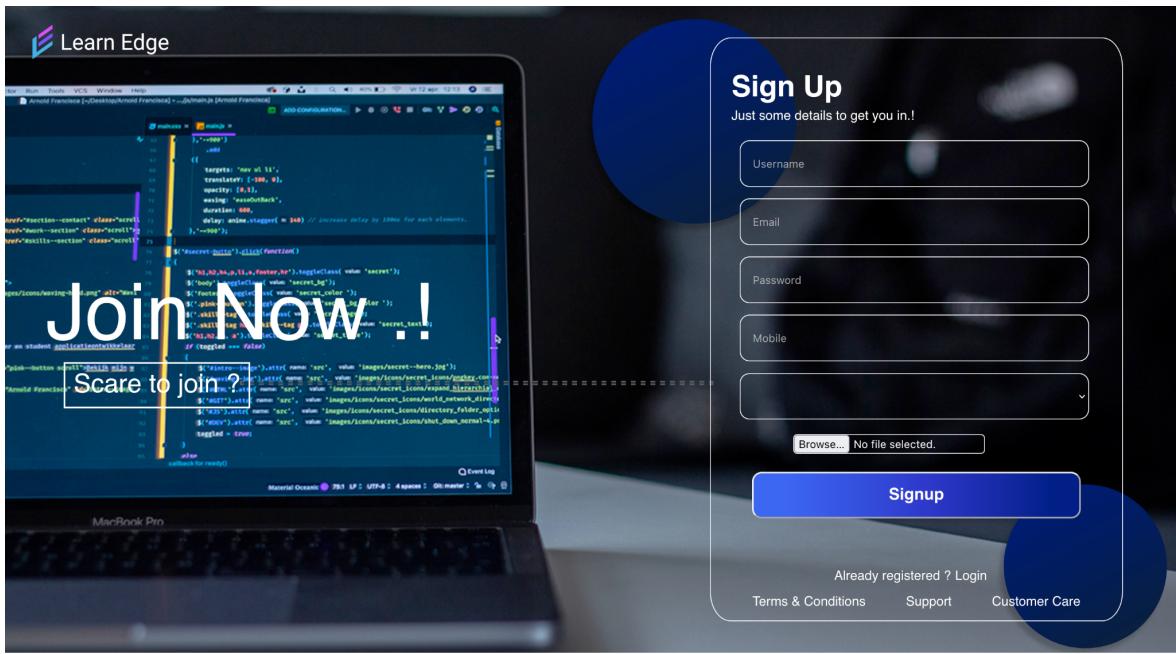

First things first make sure that the backend is on because if it's done you won't be able to create nor log in into the app.

Once the backend is working start the frontend it's gonna take you to "/home".

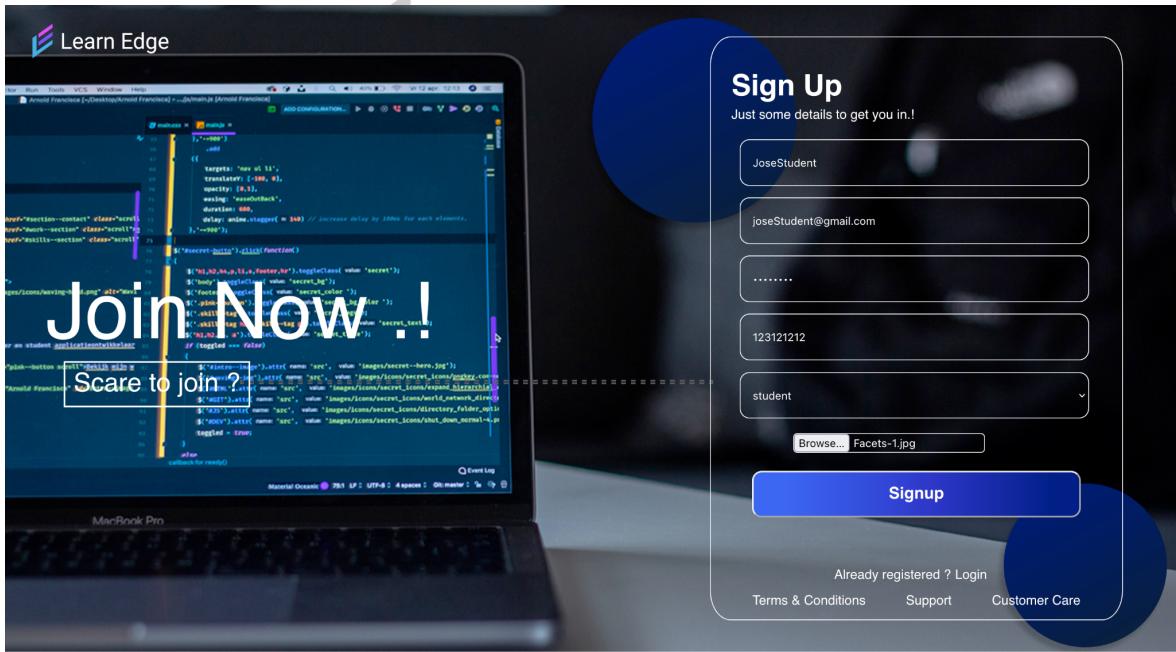

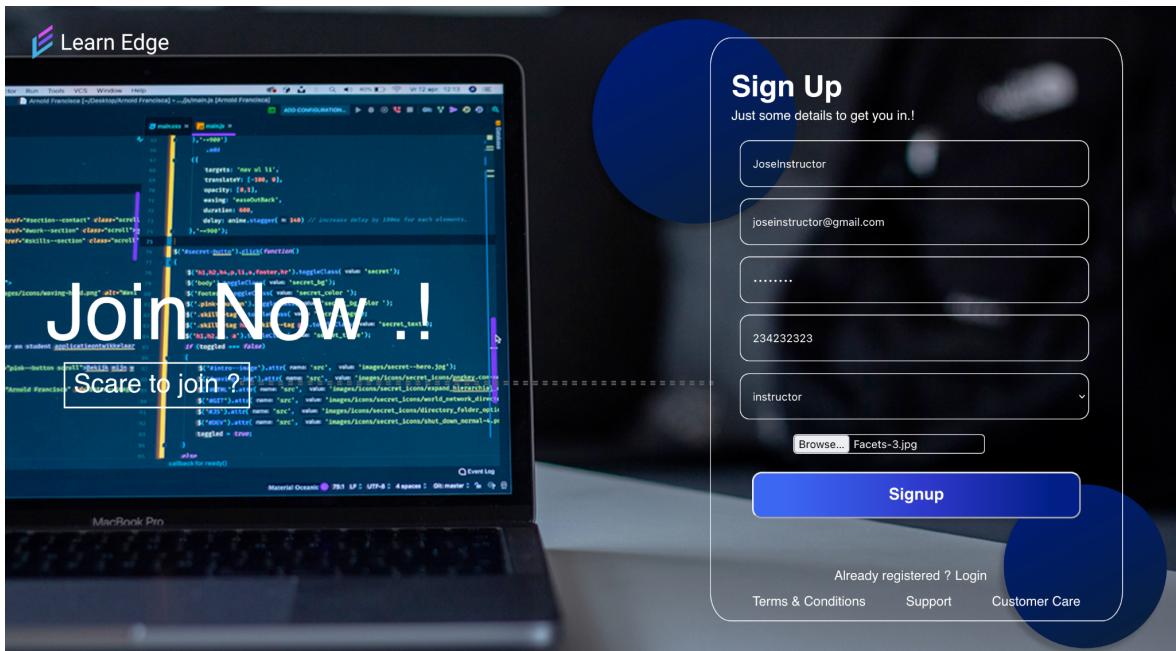

Once in "/home" here click on the red button which says "[Signup](#)".

That button it's gonna take you to the signup form.

Fill the form with your personal information and remember you need to make sure that you insert a valid email,password and mobile if you don't it's gonna fail.

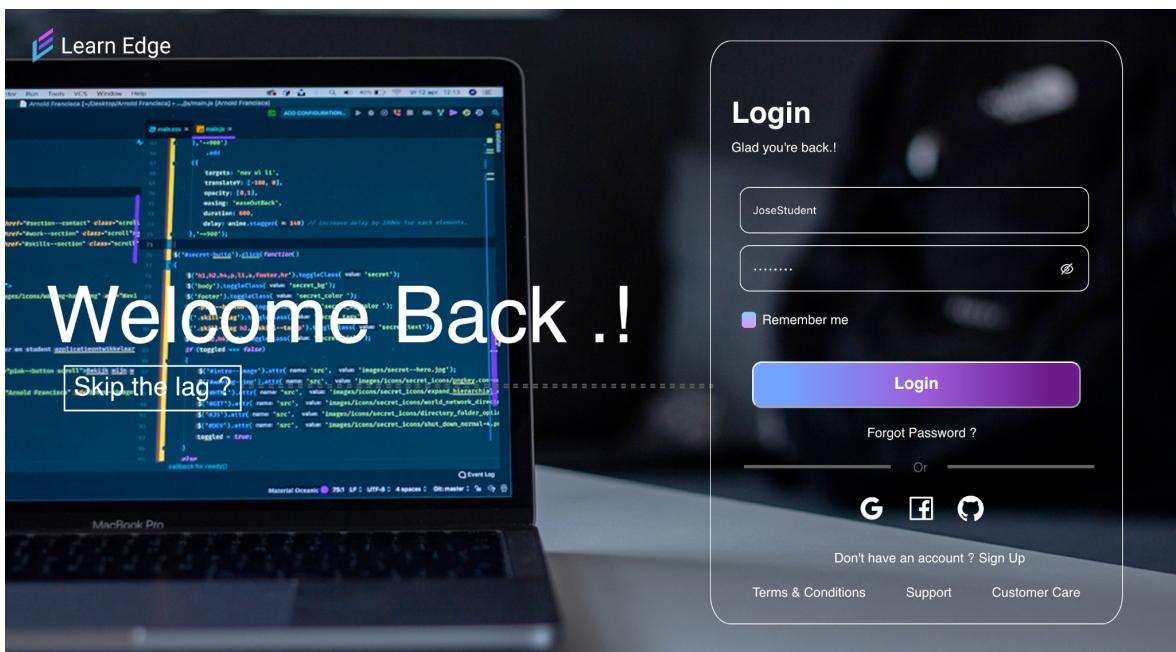

Once you fill every input you click on “[Signup](#)” and it's gonna send you to the the login page,

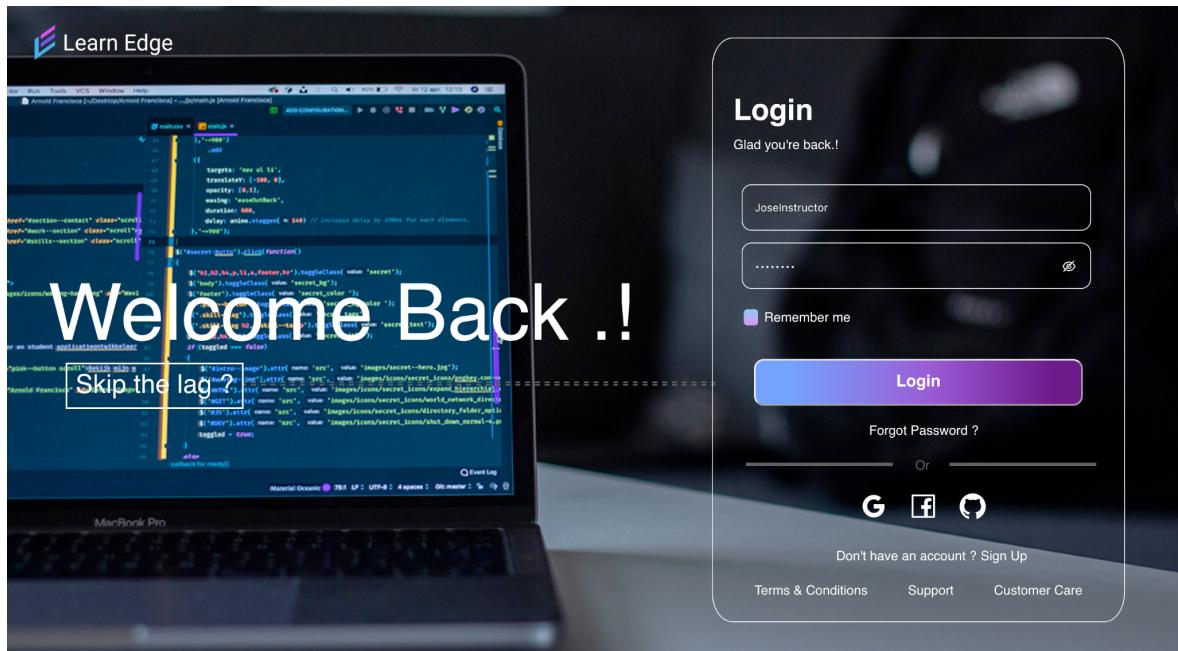

Login

Once you are in the login page you put the personal information that asks you which is “**username**” and “**password**”.

Students →

Instructors →

Click on “[Login](#)” and you’ll go to the courses page.

Students →

Instructors →

The header of the instructor dashboard. It features the 'Learn Edge' logo on the left, followed by 'Courses' and 'My Courses' buttons. On the right are a bell icon and a circular profile picture.

What would you like to learn?

[Create Course](#)

User Preferences

Now if we click on our profile pic which is on the header it's gonna take us to our profile page.

Students →

The header of the student profile page. It features the 'Learn Edge' logo on the left, followed by 'Courses' and 'My Courses' buttons. On the right are a bell icon and a circular profile picture.

My Data

Change Avatar

Username: new username

Email: new email

Phone: new phone

Save Changes

Here you can set a new username,email,phone filling the inputs and if you want to change your profile picture you must click on the "**plus icon**".

Avatar preview

Click on “**Search...**” and choose the profile picture that you like. Once you pick one is gonna show you a little preview of the chosen picture to show you how it looks.

Avatar preview

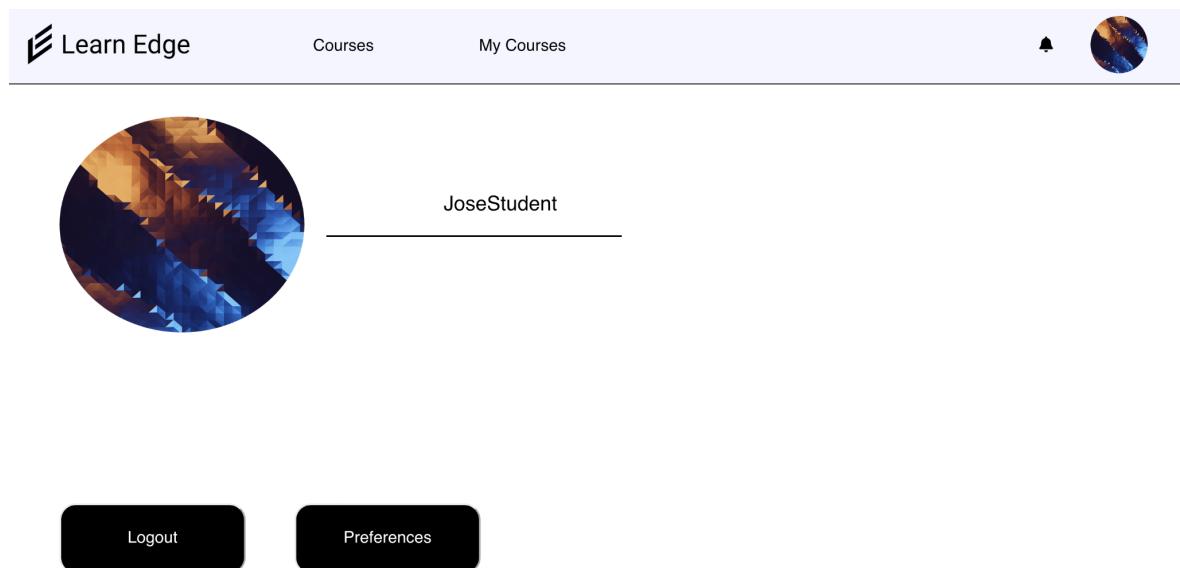

Once you choose your picture click again on the plus icon and to update your profile just click on “**Save Changes**”.

Save Changes

Once you click it's gonna refresh the page to update the new data received.

Now go to your profile to see the new information.

Create Courses (instructors only)

In the courses page instructors are gonna see a button that says “**Create Course**” you click on it.

What would you like to learn?

Create Course

Create Course

That's gonna take you to the create course form.

Create Course

Title

Course Picture

Description

Search...

Create

Fill the form with the title you would like it to have.

A description to explain the students that are gonna join the course, what the course is all about or how much time the course lasts and a course picture that, like with the user preferences, once you picture the picture that you like it's gonna show you a little preview.

Create Course

Title

Figma

Description

In the course we are gonna see a little video of how Figma Projects work. 10 Hours.

Course Picture

Search...

Create

Once all the fields are filled click on “Create” to create the course.

Create

Once you create the course it's gonna send you to the courses page and you will be able to see the course that you just created.

What would you like to learn?

[Create Course](#)

Now any students can join your course.

Upload Content (instructors only)

Once the course is created we need to put some content on it for the users to see.

To upload content you'll need to go to your profile page where you are gonna see that there is a button that says "**Upload Content**" click on it.

JoseInstructor

[Logout](#)[Preferences](#)[Upload Content](#)

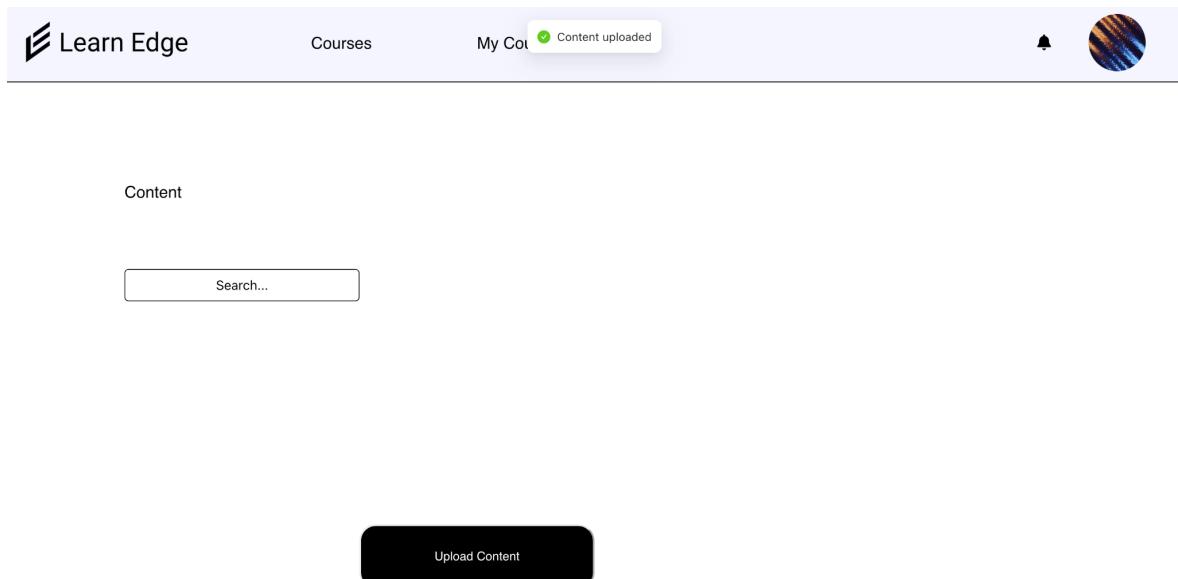

Upload Content

Content

 Search...[Upload Content](#)

You will see a very small form which is only a file input for the content that you like to upload, select the file and click on “Upload Content”.

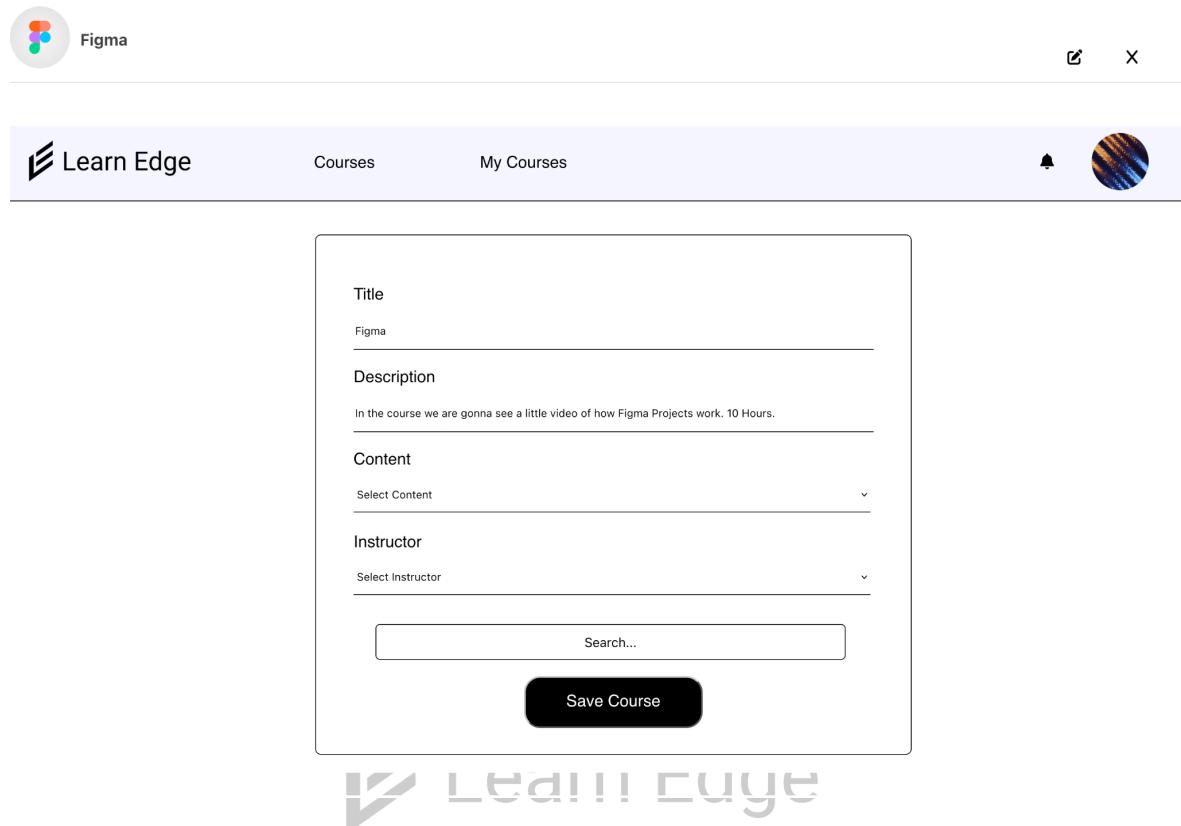

Edit Courses (instructors only)

To do this you'll need to click on “**My Courses**” which is located on the header, this is gonna take you to your “**Active Courses**” . What does that mean? Means that it's gonna show us a list of courses that you are teaching.

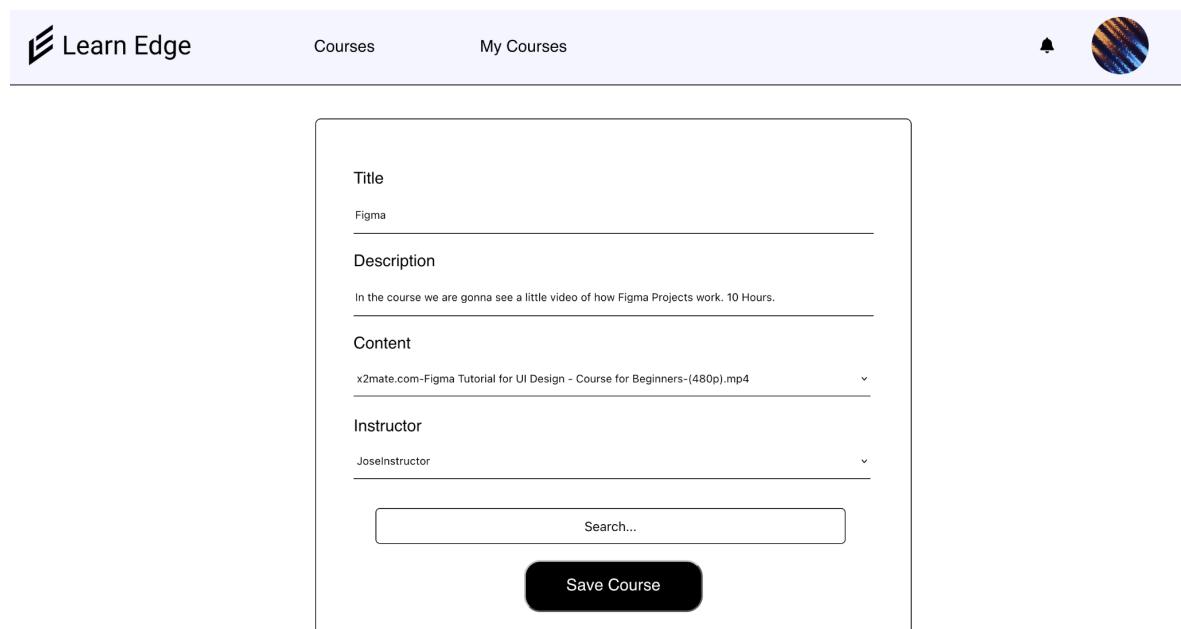

As you can see there's two icons. The “**edit one (left icon)**” it's gonna take you to the edit course form.

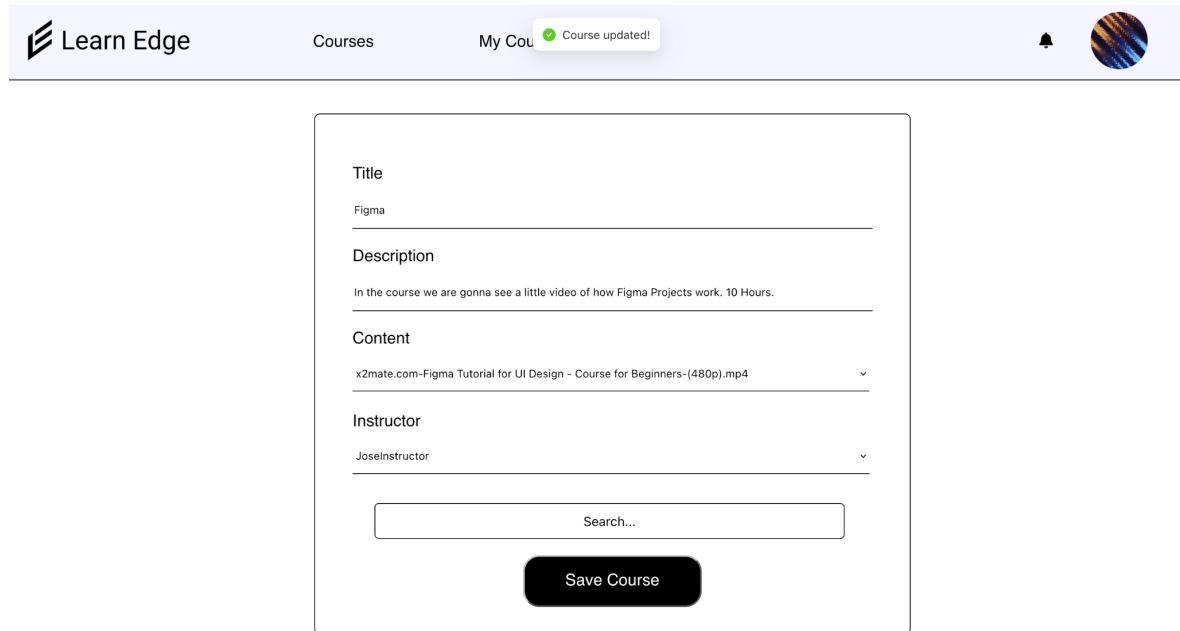

The screenshot shows the Learn Edge platform's course edit form. At the top, there's a Figma logo and a navigation bar with 'Learn Edge', 'Courses', 'My Courses', a notification bell, and a user profile icon. The main form has fields for 'Title' (set to 'Figma'), 'Description' (with placeholder text about a Figma video tutorial), 'Content' (a dropdown menu showing 'Select Content'), 'Instructor' (a dropdown menu showing 'Select Instructor'), and a search bar. A 'Save Course' button is at the bottom.

Here you will change the fields as you like, such as a new title, description and most important is where you need to set the content that the course is gonna have.

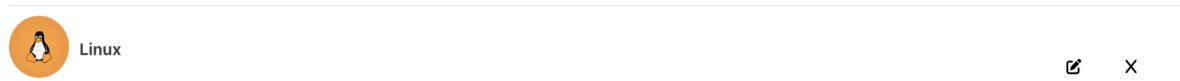

The screenshot shows the Learn Edge platform's course edit form with updated content. The 'Content' field now shows 'x2mate.com-Figma Tutorial for UI Design - Course for Beginners-(480p).mp4'. The rest of the form (Title, Description, Instructor, and Search bar) remains the same as in the previous screenshot.

Once every field is fill click on “**Save Course**” and it’s gonna give you a message to tell you that the course has been successfully updated.

Delete Course (instructors only)

Now in the same “**Active Course**” page we will click on the “**x icon (right icon)**” to erase the course. This action will completely delete the course from the application.

Active Courses

Figma

 

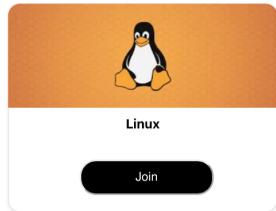

Join Courses (only students)

As students you will be able to see all the available courses in the application.

What would you like to learn?

Now you decide which course you are ready to start.

Once you decide which course to join just by pressing on "**Join**" in the chosen course it's gonna send you to its content.

The screenshot shows a course dashboard for a 'Figma Course'. At the top, there's a header with the 'Learn Edge' logo, a 'Courses' link, and a notification bar that says 'Successfully joined the course!'. On the right is a user profile icon. Below the header, there's a large empty box labeled 'Figma Course'. To the right, there's a 'Figma Project' section with a circular icon and a 'JoseInstructor' section with a circular profile picture. Below these are video and audio controls, and a 'Finish' button.

Figma Project

JoseInstructor

Finish

Leave Course (students only)

Like the instructors, students also have their own personal active course page which is located in the header "**My Courses**".

The screenshot shows a student's course dashboard. At the top, there's a header with the 'Learn Edge' logo, a 'Courses' link, and a 'My Courses' link. On the right is a user profile icon. Below the header, there's a list of 'Joined Courses' with three items: 'Figma', 'Linux', and 'Figma Project'. Each item has a 'Continue Course' button and an 'X' button.

Joined Courses

Figma

Continue Course

X

Linux

Continue Course

X

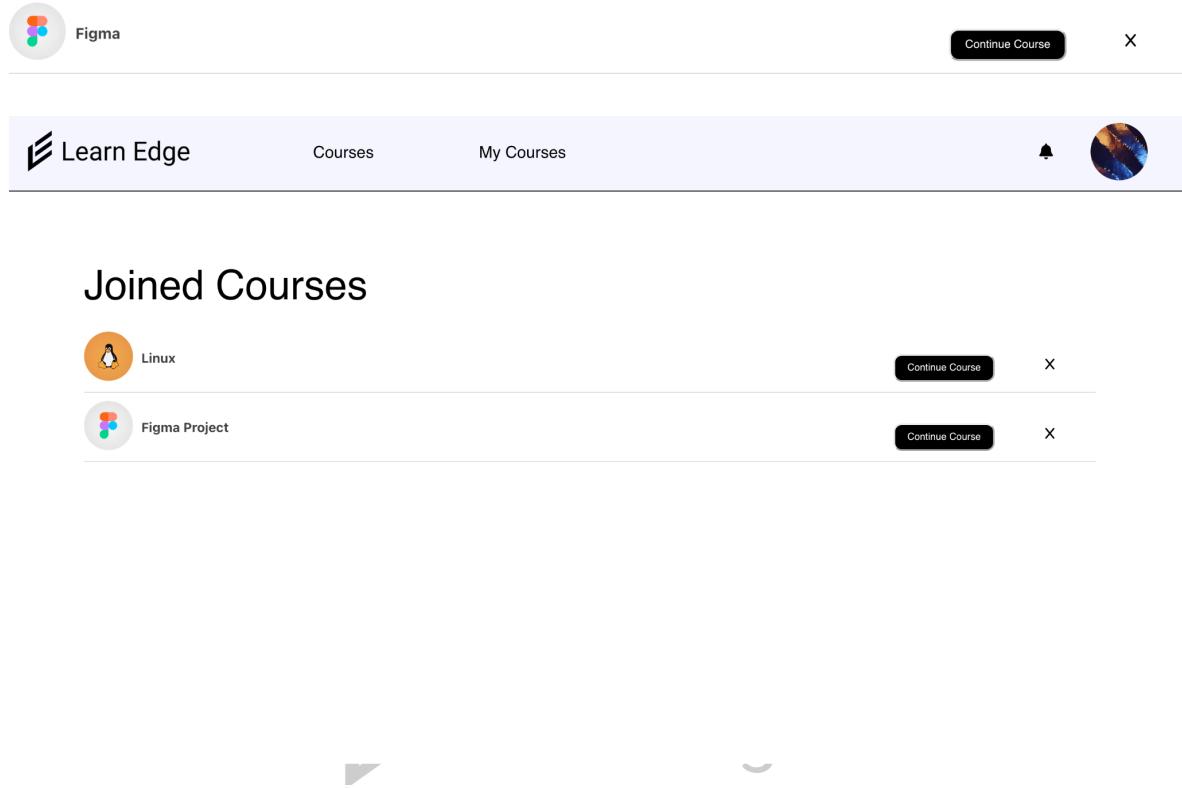

Figma Project

Continue Course

X

Here you will be able either continue with the course or leave the course.

If you decide to keep going with the course just press “**Continue Course**” and it’s gonna take you back to the course. But if you finish the course or you think that you won’t keep going with it you can delete the course from your account by clicking on the “**x icon**”.

The screenshot shows the 'Joined Courses' section of the Learn Edge application. At the top, there is a header with the Figma logo, a 'Continue Course' button, and an 'X' icon. Below the header, the 'Learn Edge' logo is on the left, followed by 'Courses' and 'My Courses' buttons. On the right is a notification bell icon and a user profile picture. The main content area is titled 'Joined Courses' and lists two courses: 'Linux' and 'Figma Project'. Each course entry includes a course icon, the course name, a 'Continue Course' button, and an 'X' icon for deletion. Below the course list, there are two small decorative arrows: a downward-pointing triangle on the left and a curved arrow on the right.

Admin

As admin you are allowed to manage every single user of the application. To do it go to your profile page you will see a button which says “**Manage**” click on it.

ADMIN

[Logout](#)[Preferences](#)[Manage](#)[Users](#)[Courses](#)

Once inside you will have two choices: manage users or courses.

Manage Users and Courses

First let's see the users click on "**Users**" and it's gonna give you a list of the users with an account on your application.

Users

ADMIN

JoseStudent

JoseInstructor

Edit User

Now to update a certain user you have to click on the **“edit icon (left one)**” and it's gonna open a popUp with the form to update the user.

JoseStudent

Users

ADMIN

Delete Course

Likewise with the students if you want to delete any course you can do it just by clicking on the “**trash icon**”.

A screenshot of the Learn Edge platform. At the top, there is a course card for "Sql" with a green circular icon containing a stack of three horizontal lines. Below the course card is a navigation bar with the "Learn Edge" logo, "Courses", "My Courses", a notification bell icon, and a user profile picture. On the right side of the course card, there are two small icons: a trash can and a checkmark.

Courses

A screenshot of the Learn Edge platform showing a list of courses. The first course is "Figma" with a grey circular icon containing a colorful gear and flower icon. The second course is "Linux" with an orange circular icon containing a penguin icon. Both courses have a horizontal line separator below them. To the right of each course, there are two small icons: a trash can and a checkmark.
